

## OATS MAKE NEW RECORD IN CITY

GO TO HIGHEST PRICE KNOWN IN GENERATION

Sales of Oats in Portland Mark New Figure at \$40 a Ton—Said to be the Highest Value Ever Reported—Wheat Continues to Remain High—Very Probable That Price of Flour Will be Advanced Soon.

Portland, April 9.—Again has the Portland wheat market touched a new high mark, a sale of a small lot of bluestem being reported at \$1.30 a bushel compared with \$1.25, the highest price before paid here. However, several small transactions are reported at interior Oregon and Washington points on the basis of \$1.30 tide-water delivery. The market here is the firmest ever seen and with but little wheat of any kind remaining at interior points the price may take a notion to advance to \$1.50 a bushel without much delay. Some interests are now predicting this figure for the remaining supplies of bluestem.

**Flour Market Will Probably Advance**  
There is every prospect at this time that local flour values will advance materially within the next week or 10 days. There is much agitation among the smaller millers to do this because they claim they are grinding wheat that costs them more money than they are getting for the flour. The largest millers are trying to hold the market down, but say that if the small ones are determined to put it higher they will have no further objection.

**Oats Market Goes to \$40 a Ton.**  
A sale of No. 1 white oats has been reported here at \$40 a ton, the highest value ever reported here. Oats supplies are very short, and it is stated that within a fraction of this figure has been offered for gray oats, although there is usually a difference of from 50c to \$1 a ton between the white and gray in favor of the former.

While the barley market here is unusually firm, no change in the spot quotations is noted.

**Wool and Hides.**

**YOUNG GENERALS ARE PROMOTED IN RUSSIA**

St. Petersburg.—The speech delivered in the Duma March 8 by Alexander G. Gouckoff, one of the Octoberists, questioning the military abilities of the Russian Generals with high commands, already has borne fruit. An order was signed yesterday making a number of important changes designed to improve the war efficiency of the army. Lieutenant-General Gerschelmann, Governor-General of Moscow, whose brilliant covering of the retreat from Mukden saved the Manchurian army, has been appointed commander of the military district of Blna, a post entailing command of the First Army Corps in case Russia should engage in hostilities with Germany. Lieutenant-General Samsonoff, who is considered the best cavalryman in Manchuria, has been named Governor-General and commander of the troops in Turkestan, succeeding General Mischenkoff, who retires on account of ill health. General Plehve has been appointed commander of the troops in Moscow.

The new appointees are vigorous men, between 50 and 55 years old. These appointments mark the passing of the Russian-Turkish war heroes, who up to the present time have been given preference in the allotment of commands.

**SHOES ARE MADE QUICKLY IN CHICAGO**

Chicago.—How long would it take you to make a pair of boots, do you think? You probably had not better

begin it, especially if you need them soon. Even a cobbler in the old days, working with his assistant, would spend a day and a half making a pair of boots. And the cost would be about \$4. But now, of course, shoes are made by machinery, and it is astonishing to hear how quickly they are made. It takes just four minutes to make a pair of boots! And the labor cost is thirty-five cents. Of course, no one makes the whole boot nowadays. There are a hundred different men making different parts of it and each one does the same thing over and over again, and each man learns to do his particular work especially well and quickly. And you should see the buttons sewed on. A boy takes the part of the shoe where the buttons are to go and fits it into a machine, throws in a handful of buttons quite carelessly, turns the machine, and in no time out comes the piece of leather with all the buttons exactly in the right place. No wonder some factories turn out ten thousand pairs of shoes in a day.

**WAR BALLOONS PRACTICABLE**

Balloons and Flying Machines Being Considered by Ordnance Bureau.

The problem of defense against aerial attacks is beginning to thrust itself upon the attention of the Bureau of Ordnance of the War Department. Dirigible balloons and flying machines having emerged from the field of possibilities to take their place as practical weapons of offense, General Crozier and the officers of his bureau are devoting themselves to the contriving of a gun which will offset the new danger.

The United States will probably follow the lead of Germany in designing a gun carriage for field use which will allow the training of sufficient range to make navigation in dirigibles above a military post somewhat hazardous. The carriage will have to be altered, however, to allow the gun to be swung in a large arc and the recoil mechanism must be changed.

It has also been suggested that a gun be devised to fire a heated shell or bullet which would ignite the gas, if it penetrated the enveloping silk, and cause explosion and the immediate collapse of the ship.

The aeroplane offers greater difficulties for the gun experts. Their rapidity of flight makes them more difficult targets to hit. The weapon to be used in defense against them will probably be of the machine-gun type which will pour a stream of bullets into the air. There is a gun of this sort now under consideration by the Department which is so light that it can be fired from the shoulder like an ordinary rifle.

## NEW DIGESTIVE JUICES WANTED

**MORE GASTRIC JUICE AND NO FERMENTATION OF FOOD**

Absolute Relief from All Stomach Trouble Is Merely a Matter of Taking Some Diapiesin—You Will Wonder Five Minutes Afterwards Why You Hesitate So Long.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapiesin costs only 50 cents and will thoroughly cure the worst case of dyspepsia, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve a sour stomach or indigestion in five minutes. Get a case now and eat one triangle after your next meal. They are harmless and taste like candy, though each contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a hearty, healthy appetite; but, what will please you most is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapiesin cranks, as some people will call them, but you will be cranky about this splendid stomach prescription, too, if you ever have indigestion or gastritis or any other stomach misery, and eat just one triangle of Diapiesin.

**GEORGIA COUNTIES LEASE THEIR CONVICT LABOR**

Atlanta, Ga. April 9.—The different counties in the state are busily providing work for the 1,200 convicts that the state has transferred from private stockades to the counties in which they were condemned.

With about 3000 misdemeanor convicts throughout the state in jails and on county farms these men of stripes will be put to work on the public roads. The end of the lease system and the transfer of the felony convicts from private stockades means employment for about 1,500 free laborers in the lumber mills, fertilizer plants and brick plants that have employed convict labor.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. Koeppe Bros.

**KIAMATH INDIANS ASK FOR NEW INDIAN AGENT**

Klamath Falls, Ore., April 9.—Indians of the Klamath reservation have become dissatisfied with the administration of Horace G. Wilson,

and are preparing a petition to send to the Secretary of the Interior asking for the removal or transfer of Mr. Wilson. The grounds for complaint are varied and numerous. The general charge is made that the Indians are suffering a loss to their property and that trouble is likely to occur among them. They set forth that Mr. Wilson has been lax in the enforcement of the laws, with the result that drunkenness has been frequent and that white men have been permitted to reside on the reservation after complaint was made that they were stealing stock from the Indians.

There appears to be considerable dissatisfaction among the Indians, and it is very probable this has been augmented by the announcement that the remnant of Captain Jack's band is to be returned and given equal rights with the other Indians.

**WILL MEET PATHFINDER CAR OF AUTO RACERS**

Seattle, April 9.—Clarence Hanford and party left Seattle this morning for Granger, Wyo., where they will meet the famous Thomas car, winner of the New York to Paris race of a year ago, and bring it to Seattle in its pathfinder run before the New York to Seattle race this summer. Both cars are expected to reach Granger April 15th.

**DISCRIMINATING LADIES.**

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general, hair-dressing. It makes the scalp feel fresh and it always that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

One dollar bottles guaranteed. A. C. Koeppe & Bros.
